

CONCAVE AND CONVEX CRIMP CURVING SOLUTIONS FOR BOX PROFILED PANELS

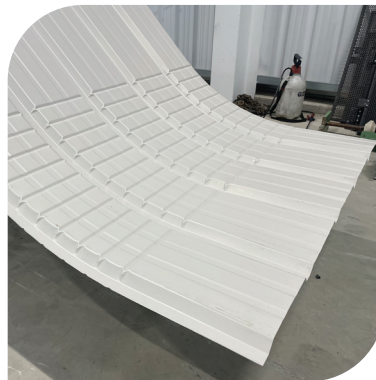

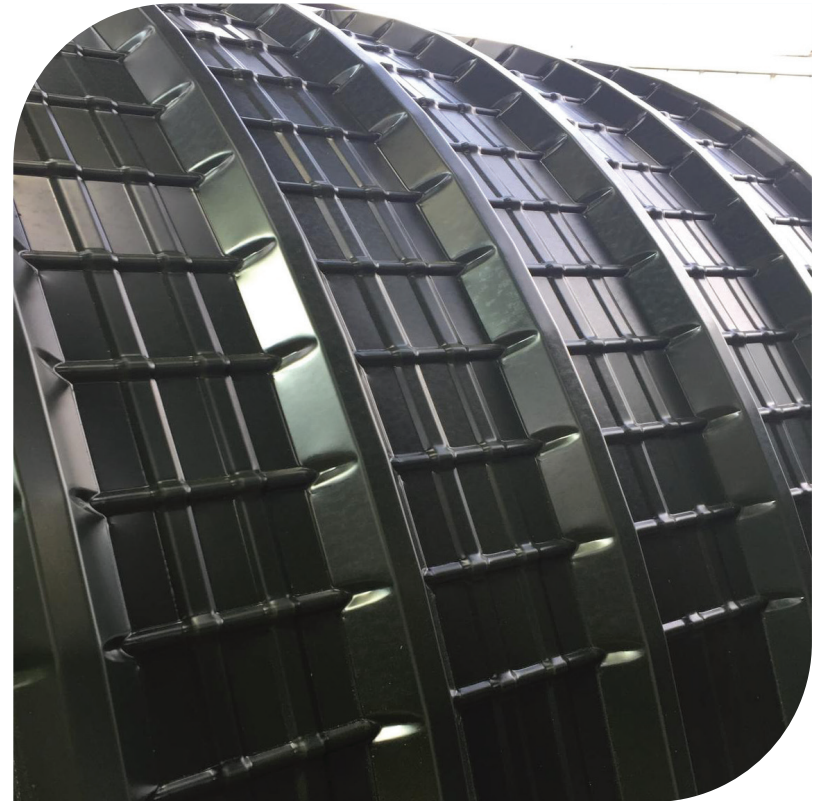

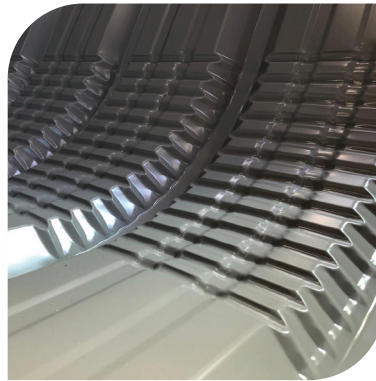

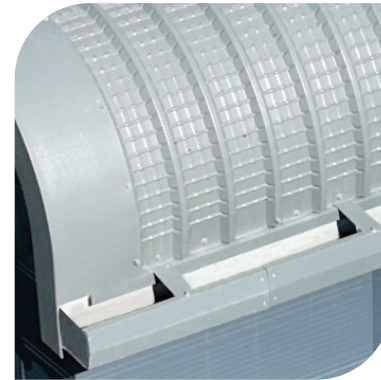

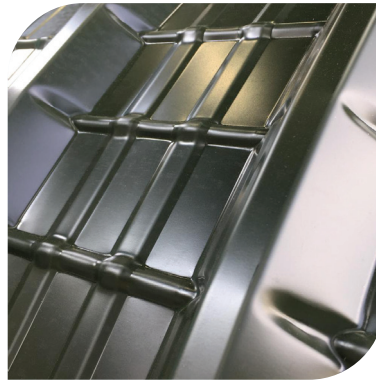

We are proud to be able to manufacture BOTH concave and convex curved panels with a 20/1000, 32/1000 or 34/1000 box profile and in a wide range of colours and finishes.

The capability to produce this range of curvatures under one roof within the UK market is relatively unique.

Our highly skilled technicians can manufacture:

- Concave box profiled curves with a radius of 430mm upwards.
- Convex box profiled curves with a radius of 290mm upwards.

Hornsey Steel Panels and Sections Ltd are a market leading, family owned and run UK manufacturer and we excel at innovation.

CONCAVE AND CONVEX SMOOTH CURVING SOLUTIONS FOR CORRUGATED PROFILED PANELS

Our team can also create smooth curves with a minimum radius of 400mm using our full range of corrugated profiles, with up to a maximum sheet length of 9000mm, radius dependant, in a wide variety of colours and finishes. All profiles have a height of 19mm and a pitch of 76mm.

Our highly skilled technicians can manufacture:

- 8/3" with a cover width of 610mm (max length 6000mm)
- 10/3" with a cover width of 762mm
- 13.5/3" with a cover width of 990mm

We have over 50 years of experience in producing the highest quality bespoke metal fabrications to suit individual roofing and cladding needs.
